# THE RELENTLESS PURSUIT OF PERFECTION

Riding pleasure starts long before you get onto your motorcycle. Because when you know your safety is taken care of, you're free to enjoy the buzz of anticipation whenever you suit up for the next journey. That's why BMW Motorrad created the C.A.R.E. stamp of approval. C.A.R.E. stands for Concept of Advanced Rider Equipment, and represents the unwavering commitment to **safety, innovation, comfort** and **quality** that goes into designing every item of BMW Motorrad rider equipment.

Each product is years in the making. Whether we're talking about the hard-wearing new materials developed by a dedicated R&D team, the sophisticated design elements that increase both protection and comfort, or the testing methods devised and employed in-house, the highest standards are applied from start to finish. This relentless pursuit of perfection allows BMW Motorrad to ensure that its products meet standards far more stringent than CE and EU norms. Only then will they receive the C.A.R.E stamp of approval. We want you to enjoy riding your motorcycle – and that doesn't just mean meeting standards. It means surpassing them, in everything we do.

Find out more at [bmw-motorrad.com/care](http://bmw-motorrad.com/care)

## SAFETY

Safety is the number one priority when out on the road. And this doesn't just apply to the bike itself – it means having the right protective clothing, too. When riders take to the tarmac, they're completely exposed, and there's a lot going on around them. They need to be prepared for anything that comes their way. That's why safety is one of four C.A.R.E. criteria, and central to the development of our rider equipment. Every last detail is subject to intense scrutiny to ensure comprehensive protection.

We take great care in ensuring that our products are compatible with one another. Whether you go for a BMW Motorrad jacket and pants, or combine several other products, each item must function as part of a single protective unit that leaves no part of the body vulnerable.

On all of our pants, jackets and suits, those areas most at risk in the event of an accident are reinforced, double stitched and fitted with state-of-the-art CE protectors. This ensures the garments can withstand all the usual stresses and strains of day-to-day riding, and even the hardest impacts on asphalt and gravel, without sacrificing freedom of movement.

The materials and treatments, the manufacturing techniques, and every test at every stage all reflect the pursuit of one goal: to provide riders with the highest level of active and passive safety and the most enjoyable ride possible. After all, at BMW Motorrad, safety is about providing total peace of mind.

## COMFORT

Just like safety, comfort is a crucial factor in the development of rider equipment. Ultimately, it's about providing maximum passive protection while ensuring riders are not distracted by any of the garments they are wearing.

Whatever the weather conditions, and however hot or cold it may be, anything less than total comfort might diminish their ability to react. That's why BMW Motorrad clothing includes the latest ventilation and membrane technologies.

Not only do our products look and feel great, they're also supremely functional. We strive to set new standards in everything we do. Whether it's the collar, the sleeves or the cuffs – we're meticulous about every part of every garment, no matter how big or small.

## INNOVATION

Innovation has been at the heart of BMW Motorrad since it was established in 1923. We've also led the way in the development of rider equipment since the mid-seventies. We've invested years of research, development and testing to create solutions that meet a wide-ranging set of requirements for motorcycling clothing – with the aim of making the best even better.

Our groundbreaking BMW climate membrane technologies are prime examples of this: c\_change™ breathes in summer to keep riders cool, while locking in warmth on colder days, while the BMW climate membrane also offers a waterproof rating of 10,000 mm. Combining unprecedented damping properties with maximum comfort, our NP and NP2 protectors are great examples of why BMW Motorrad rider equipment is at the forefront of innovation.

C.A.R.E. is more than a seal of approval – it's a promise to our customers that we're constantly breaking new ground to deliver safer, higher-quality and more comfortable products.

## QUALITY

At BMW Motorrad, we know that raising the bar means going to great lengths. That's why we put our products through mile after mile of testing to identify and eliminate any potential weaknesses. Every item in the BMW Motorrad rider equipment range is designed and built to endure the countless miles riders cover.

There are no legal requirements for quality and durability, so we decided to create our own standard with its own set of criteria. And this is something we're taking very seriously. In our dedicated laboratory, every item of BMW Motorrad rider equipment is tested down to the last detail to ensure incomparable quality – and this includes the development processes and the materials used to make them.

We shake, scrape and smash practically everything within our reach in our test facilities. As a result, you're unlikely to find the same level of quality anywhere else.

# C.A.R.E. STANDARDS – HOW THEY MEASURE UP

## SAFETY

CATEGORY	INDUSTRY STANDARD	C.A.R.E. STANDARD
Impact absorption	There is no legal requirement for specially fitted right and left-side protectors.	BMW Motorrad offers right and left-side protectors that can be adapted to the rider's specific shape. They offer excellent impact absorption performance and have won countless consumer awards.
Tear resistance	Materials must offer a minimum resistance of 100 N/cm2. (DIN EN ISO 13937-2:2000; tear resistance*)	We aim to use materials that can resist a force of 1000 N/cm2.
Impact/abrasion resistance	In standard industry testing, materials are exposed solely to an abrasive belt running at approx. 18 mph. (DIN EN ISO 13595-2:2002; impact abrasion resistance*)	The BMW testing institute simulates the impact, fall and slide of a 165-lb rider on motorway tarmac, at speeds of up to 75 mph.

## INNOVATION

CATEGORY	INDUSTRY STANDARD	C.A.R.E. STANDARD
Water resistance	According to DIN standards, fabric with a water head of 1,300 mm is considered waterproof. (DIN EN 20811:1992; water resistance*)	The BMW climate membrane offers a 10,000-mm head of water, while also being incredibly breathable.
Practicality	Legal requirements do not call for motorcycle clothing to be tested in use at all.	BMW Motorrad test riders assess the practicality of every item we produce over numerous rides (including endurance testing) in a range of weather conditions.

\* As of October 2014

## COMFORT

CATEGORY	INDUSTRY STANDARD	C.A.R.E. STANDARD
Fit and ergonomics	In general, only standardized sizes are available. (DIN EN ISO 340*)	The sizes we offer are based entirely on the dimensions measured and supplied to us by our customers.
Height-adjustable protectors	There is no legislation that requires knee protectors to be height-adjustable.	Our protectors are height-adjustable as standard, ensuring the perfect fit for each rider.

## QUALITY

As there are no legal requirements for quality, we work from the relevant DIN EN ISO standards.

CATEGORY	INDUSTRY STANDARD	C.A.R.E. STANDARD
Resistance to fading	No industry standard.	Garment samples are spread out under xenon light to test their resistance to fading. (Taken from DIN EN ISO 105-B02:2002; resistance to fading*)
Rub fastness	No industry standard.	Each material is placed alongside a wet or dry testing fabric, and the two are rubbed together. The material's rub fastness is assessed based on the coloring of the test fabric. (Taken from DIN EN ISO 105-X12:2002; rub fastness*)
Color fastness to perspiration	No industry standard.	Textiles are placed alongside a testing fabric soaked in sweat, and the two are rubbed together. (Taken from DIN EN ISO 105-E04:2013; fastness to perspiration*)
Oil repellency	No industry standard.	Materials are tested for their resistance to oil in the same way as the color fastness analysis. (Taken from DIN EN ISO 105-X12:2002; rub fastness*)
Fastener abrasion resistance	No industry standard.	Textiles are subjected to the Martindale abrasion test, at a force of 9 kPa over 4000 cycles, to assess their resistance to wearing. (VDA 230-210:2008, taken from DIN EN 530:2013; fastener abrasion resistance*)
Washing fastness	No industry standard.	Textiles are sewn into a piece of test fabric, then placed in a beaker full of detergent solution and agitated. The test fabric is then dried, and the coloring assessed. (Taken from DIN EN ISO 105-C06:2010; textile washing fastness*)

# SUITS

Motorcyclists place a lot of value on being protected from the elements at all times, come what may. From well-ventilated summer outfits and waterproof touring suits to leather one-pieces, BMW Motorrad offers perfectly designed solutions for every scenario. ## AIRFLOW SUIT

## MEN AND WOMEN'S CUT

Even on the hottest summer days, the AirFlow summer suit will keep you cool and fresh. Stretch and mesh inserts made of abrasion-resistant Dynatec material provide excellent ventilation and freedom of movement. In black, this suit has an additional Coldblack finish, to prevent it from heating up.

- The perfect summer suit for warm weather
- Abrasion-resistant Dynatec outer
- Removable NP2 protectors at shoulders, elbows, back, hips and knees (height-adjustable at elbows and knees)
- Generous stretch Dynatec on the upper back for maximum freedom of movement
- AirTex mesh inserts on the chest, arms and thighs for optimum ventilation
- Mesh lining is extremely air permeable and elasticated
- Includes windproof Cover jacket to wear over top in cooler weather; can be stowed in back pocket
- Reflective material on the jacket and pants
- Black version incl. Coldblack technology
- Dirt and water-resistant finish
- Soft material on the collar, sleeve seams and pant waistband
- VELCRO® fasteners to adjust width of pant waistband, sleeve cuffs and pant cuffs, and waist of the women's jacket
- Two built-in carry straps mean jacket can also be worn as backpack
- Two side jacket pockets, one back pocket, three inner pockets, two pant pockets (most pockets with zips)
- Extra: waterproof pouch in jacket pocket e.g. for your smartphone or wallet
- Connector zip: 40 cm and all-round
- Regular fit
- CE-certified

## STREETGUARD SUIT

## MEN AND WOMEN'S CUT

Breathable, windproof and waterproof, this jacket is a genuine all-rounder that comes with a thermal inner jacket and removable thermal pant liners. A highly abrasion-resistant three-layer laminate with ProtectionGuard and removable NP2 protectors offer all the protection you need.

- Professional-grade touring suit for year-round use
- Highly abrasion-resistant, elasticated three-layer laminate (95 % CORDURA® and 5% elastane)
- BMW climate membrane, developed in accordance with C.A.R.E. standard; windproof, waterproof and highly breathable
- Material reinforced with innovative ProtectionGuard in vulnerable areas
- NP2 protectors at shoulders, elbows, back, hips and knees (height-adjustable), coccyx protector retrofittable
- Wind- and waterproof removable storm collar with integrated storm hood
- Removable, wind-proof, thermal inner soft-shell style jacket can be worn separately
- Removable thermal pant liners
- Zipable pant fly in men's pants with stretch side panels and adjustable pant braces
- Zipable raised waistband in women's pants with fleece lining with anti-slip silicone print for grip
- Ventilation zips on the front and rear of the jacket, and on the upper thighs
- Jacket pockets: two water-resistant outer pockets, one easy-access zipped pocket with a waterproof, labyrinth-design zip closure, three waterproof inner pockets, incl. one multimedia pocket
- Pant pockets: two water-resistant outer pockets
- Steplessly adjustable pant waist
- Reflective print on the front and back of the jacket and on the pant side panels
- Connector zip: 40 cm, all-round and extended
- Comfort fit
- CE-certified

ENDUROGUARD SUIT

MEN AND WOMEN'S CUT

Be prepared, whatever the weather. This professional adventure suit is the pinnacle of performance and practicality. The specially developed outer material made of Dynatec and Dynatec Stretch (with a partial ceraspace print) offers the highest levels of abrasion resistance. The three-layer laminate with BMW climate membrane offers perfect temperature regulation in this breathable, windproof and waterproof suit. A variety of ventilation zips and other clever details help create a bona fide 'comfort zone' for the rider.

- Highly abrasion-resistant outer material made of Dynatec and Dynatec Stretch (with a partial ceraspace print), developed by BMW in partnership with Schoeller Textil AG.
- Three-layer laminate with BMW climate membrane: windproof, waterproof and highly breathable
- NP2 protectors at back, shoulders, elbows, hips and knees (steplessly height-adjustable)
- Coccyx protector retrofittable
- Unparalleled all-round ventilation thanks to a variety of vents; double front zip serves as an air vent
- Mesh lining in jacket and pants, plus 3D mesh lining in back; breathable and elastic
- Eight jacket pockets, seven of which are waterproof, men's jacket with an additional chest pocket, three pant pockets, incl. one key case
- Wide sleeves and pant cuffs feature a windbreaker for optimum protection in inclement weather
- Waterproof storm hood integrated into the collar

- Leather on insides of knees for a firm grip on the tank when you're riding off-road
- VELCRO® fasteners and press studs offer adjustable widths
- Reflective print on jacket
- Connector zip: 40 cm and all-round
- Comfort fit
- CE-certified

GS DRY SUIT

MEN AND WOMEN'S CUT

Take to the streets with the adventure look. This waterproof motorcycling suit is the perfect companion for any tour, offering optimum weather protection for every adventure. In the heat of the summer, its unique ventilation system comes into its own, thanks to the robust CORDURA® 500 material with highly breathable BMW climate membrane.

- Waterproof adventure suit, suitable for touring
- Outer made from robust CORDURA® 500/polyamide blend for optimum durability
- BMW climate membrane ensures suit is windproof, waterproof and highly breathable
- Enhanced protection on areas most susceptible to falls, with half-tone PU coating with ceramic particles
- Removable NP2 protectors at shoulders, elbows, knees (height-adjustable) and hips
- Includes long NP Pro back protector
- Unique watertight zips also open the membrane for direct airflow to cool the upper body
- Stretch inserts at the arms, knees and seat
- 3D air mesh lining at the back for optimal circulation
- VELCRO® straps for adjustable fit on the sleeves, waist and pant hemline
- Two waterproof flap pockets
- One chest pocket, one sleeve pocket and two pockets each on the back and on the pants
- Leather trim on the interior at the knee for secure grip during off-road riding

RALLYE SUIT

MEN'S CUT

The Rallye suit is full of handy features that make it the perfect globetrotter. The watertight insert can be worn both under and over the jacket for optimum protection from rain, wind and dirt. This well-ventilated suit is also made of abrasion-resistant ProTechWool material and has several pockets for storing your personal items.

- Off-road suit suitable for warm to moderate temperatures with detachable waterproof insert
- ProTechWool, a quick-drying, temperature-regulating performance fabric made from wool and polyamide with a carbon finish
- Wind and waterproof inner/outer jacket: when worn as an over jacket also protects from dirt
- Pants with wind and waterproof BMW climate membrane insert with comfort mapping: Membrane qualities matched to different areas of the body
- Material reinforced in areas most susceptible to falls
- Elastic, breathable mesh lining in the jacket
- Pants with elastic inserts
- Long leather trim on the interior at the knee for secure grip during off-road riding
- Hem edge reinforced
- NP2 protectors on shoulders, elbows, hips and knees (adjustable to three different heights)
- Long NP Pro back protector
- Optional chest guard, attached via four press studs

- Sophisticated ventilation system using flaps on chest, zips on arms and legs, and large air outlet panel on back
- 3D air-mesh lining on the back to allow air circulation under back protector
- VELCRO® and press studs for width adjustment
- Wide, easily adjustable leg openings
- Jacket: Six front pockets (two waterproof), one large and one small pocket on the lower back, two zipped inner pockets
- Easy-access pouch for the TrinkPak Hydra
- Four pant pockets
- Reflective material on the sleeves, back and pants
- Connector zip: 40 cm
- Regular fit
- CE-certified

ATLANTIS SUIT

MEN AND WOMEN'S CUT

This premium touring suit made from high-quality leather offers comfort and protection for year-round motorcycling. The breathable nubuck cowhide leather boasts incredible abrasion resistance and waterproofing, offering maximum comfort and temperature regulation even over long distances.

- All-weather touring suit made of high-quality nubuck cowhide leather
- Highly abrasion-resistant, full-grain cowhide leather (1.2–1.4 mm), highly water-resistant and water-repellent
- NP2 protectors on shoulders, elbows, hips and knees (adjustable to three different heights)
- Removable NP Pro back protector
- Coccyx protector retrofittable
- Naturally breathable leather regulates body temperature and moisture extremely effectively
- Taped, watertight seams and rubber-lined, waterproof zip fasteners prevent unwanted water penetration
- Waterproof membrane flap under the jacket's front zip, combined with a second, inner zip
- Waterproofing offered by membrane fabric behind the pant fly helps to prevent water penetration
- Loops on pants for attaching optional braces
- Stretch zones at the shoulders, back and above the knee, as well as at the rear pant waistband
- Adjustable at waist, arm and pant cuffs
- Two zipped outer pockets on both the jacket and pants, two zipped inner pockets in the jacket
- Sleeve cuffs feature two zips, which allow you to wear gloves either inside or outside the suit (the second zip can be left open when wearing gloves inside the suit)
- Grey reflective print on shoulders
- Connector zip: 40 cm and all-round
- CE-certified

DARKNITE SUIT

MEN AND WOMEN'S CUT

A modern leather suit cut in a classic style, the DarkNite suit offers the purest riding experience. Made with high-quality, unsealed cowhide leather, each suit retains its natural authenticity and boasts a unique patina. Additions such as removable NPL and NP2 protectors, padded inserts and more mean you can ride in confidence – without sacrificing the jacket's classic styling.

- Modern suit made of high-quality cowhide leather
- Abrasion-resistant, natural full-grain cowhide leather (1.0–1.1 mm)
- Water-repellent, but not waterproof
- Naturally breathable leather regulates body temperature and moisture effectively
- NPL protectors at the back, shoulders, elbows and knees (steplessly height-adjustable), NP2 protectors at hips (removable)
- Stretch fabric at the back, above the knee and on the rear pant waistband for optimum freedom of movement
- Padded inserts at the collar and shoulders
- Jacket waistband and women's pants adjustable via press stud fastener
- Sleeve and pant cuffs feature metal zips
- Stand-up collar closable with press stud
- Three zipped outer jacket pockets, three inner pockets (incl. a smartphone pocket), four pant pockets (zipped back pockets)
- Premium metal BMW Motorrad lettering on back, embossed BMW logotype on the left upper arm
- Cotton lining at the chest and back with large print on the back, mesh lining in the sleeves and pants
- Connector zip: 40 cm
- Regular fit
- CE-certified

SPORT SUIT

MEN'S CUT

Take control of the streets in this professional-grade suit made of 100% cowhide nappa leather. NP2 protectors and INOX stainless steel sliders safeguard the rider in the event of a fall, while 3D mesh in the back and the AirVent system in the front ensure it never gets too hot or cold inside the suit. Every element is designed to maximize performance, including the cut, which encourages riders to assume an aerodynamic racing position. The result is total domination every time you take to the tarmac.

- Sporty leather two-part suit
- 100 % cowhide nappa leather (approx. 1.3 mm)
- NP2 protectors stitched in at shoulders, elbows and knees; removable hip and back protectors
- Optional retrofittable NP2 coccyx protector
- Integrated, shock-absorbing material at collarbone and on chest
- Plastic-covered INOX stainless steel slider at shoulders
- Detachable knee sliders made of hardened plastic
- Front zip can also be used as air vent
- 3D mesh lining in back for improved circulation
- Leather stretch inserts for maximum comfort at the shoulders, sleeves, kidneys and knees
- Kevlar® stretch inserts for the best possible fit and freedom of movement for the arms and legs
- Highly elasticated LYCRA lining in high-motion areas
- Soft neoprene-edged collar
- Cuffs on arms and legs made of Kevlar® stretch material
- Pant waistband made of stretch fabric
- Two outer pockets, one Napoleon pocket, one inner jacket pocket
- Preshaped sleeves and knees for excellent seated posture on the motorcycle
- All seams are safety seams stitched with safety thread
- Connector zip (all-around)
- Regular fit
- CE-certified

BOULDER JACKET

**MEN'S CUT**  
Whether in the spring, summer or autumn, and whether for the everyday or any other day, if you need a casual jacket, look no further than the Boulder. Its air vent system ensures proper air circulation, and if the weather takes a turn for the worse, its removable insert also provides effective protection against the wind and rain.

- Short, casual jacket for the urban environment
- Abrasion-resistant polyester/cotton blend with a water-repellent wax finish
- Lightweight, removable NPL protectors at the shoulders and elbows
- NPL back protector can be retrofitted
- Breathable, wind and waterproof removable insert with BMW climate membrane
- Dirt and water-resistant finish
- Double front zip with mesh inner serves as an air vent
- Steplessly adjustable collar and sleeves
- Two zipped side pockets, two chest pockets, two inside pockets (one of which is waterproof), one waterproof pocket in insert
- Best paired with the Ride quilted jacket
- Reflective print in the neck area, reflective BMW Motorrad lettering printed in Anthracite
- Collar closure trimmed in faux suede

– Connector zip: 40 cm

DOWNTOWN JACKET

MEN AND WOMEN'S CUT

You're all business until the clock hits five. After that the bike is the only company you need. And this half-length, two-in-one parka-style jacket will help you make the perfect getaway. Thanks to the removable thermojacket, you can wear it comfortably over another jacket or suit as a handy protective layer. This makes it the ideal companion for anyone who commutes to work on their bike.

- Waterproof half-length parka-style jacket for city and business wear
- Lightweight, elastic, abrasion-resistant polyester outer
- BMW climate membrane (windproof, waterproof and breathable)
- Removable padded thermal jacket, can also be worn separately
- Removable NPL protectors at the shoulders and elbows
- NPL back protector can be retrofitted
- Press-stud sleeve, waist adjustable using back belt
- Two waterproof zipped pockets
- Double-thickness sleeve
- Two zipped inner pockets
- Color-matched lining: dark blue for men, yellow for women
- Fashionable collar accessory
- Discreet reflective sleeve insert
- Connector zip: 40 cm
- Regular fit
- CE-certified

SANDIEGO JACKET

MEN AND WOMEN'S CUT

Ride with style this summer – in a classic mix of waxed fabric and abrasion-resistant leather. You can even remove the shoulder and elbow protectors to wear it as a casual jacket around town. It's incredibly comfortable, with enough pockets for all your bits and pieces. Perfect for everyday use.

- Relaxed-cut motorcycle and leisure jacket for men and women
- Straight, hip-length fit for men; shorter tailored fit for women
- 1.0 to 1.2-mm abrasion-resistant cowhide sleeves and shoulders, with a lightly used look
- Rest of jacket is hard-wearing waxed fabric
- Removable NPL protectors at the shoulders and elbows
- NPL back protector can be retrofitted
- Inner zip on waist hem lets you remove shoulder and back protectors
- Full-length metal front zip
- Multiple chest and side pockets with zips
- Double-thickness fabric on back
- Intricate lining with 'Make Life a Ride' printed in large letters on the back; two inner pockets and one smartphone pocket

- Zip and stud fastener at the wrist
- Lapel collar closable with press stud
- Connector zip: 40 cm
- Regular fit
- CE-certified

RIDE JEANS

MEN AND WOMEN'S CUT

These Ride jeans are fully fledged casual motorcycling pants with five-pocket styling. They offer enhanced abrasion resistance thanks to the carefully selected material blend and integrated Kevlar® inserts in vulnerable spots. Riders can quickly and easily remove the knee protectors from the outside, turning the pants into casual jeans for everyday wear.

- Stylish five-pocket motorcycling jeans
- For use on and off the bike
- Abrasion-resistant blend of cotton, polyester and CORDURA®
- Kevlar® inserts for enhanced abrasion resistance in the seat and at the hips, and on the sides of the upper thighs and knees; invisible from the outside
- Steplessly height-adjustable NPL knee protectors, removable from the outside for a quick change from motorcycle to leisure pants
- Removable NP2 hip protectors
- Separate men and women's versions (men: straight-cut, women: slim-fit)
- Leather label on waistband featuring BMW Motorrad lettering and embossed with 'engineered in Germany'
- 'Make Life a Ride' print on the inner waistband
- Connector zip: 40 cm

SPORT DRY BOOT

**UNISEX**  
Built for speed, tailored for comfort: SportDry boots are made of 2.2-mm cowhide leather and feature removable side and heel abrasion protectors. The breathable, windproof and waterproof GORE-TEX® membrane keeps your feet comfortable during the hottest overtaking maneuvers, while the torsion-resistant ankle guard (TCS), shock absorber and toe reinforcements provide top-level protection.

- Sport-style leather boot with removable plastic side and heel protectors
- Upper: cowhide leather (2.2 mm), synthetic leather at the ankle
- Windproof, waterproof and breathable GORE-TEX® membrane
- Rigid ankle protection with the Torsion Control System (TCS)
- Anatomically moulded shin guard
- Interior reinforcement at toes
- Shock absorber at the heel
- Shift-lever guard made of soft PU
- Inner shaft zip, large VELCRO® calf fastening for adjustment
- Stretchy areas at the instep and heel
- Reflective patches on heels
- Oil and fuel-resistant rubber sole
- Removable, washable insole

- Insole lined with moisture-wicking, antibacterial Cambrelle
- Perforated, breathable mesh lining in the shaft
- Large BMW Motorrad appliqué on shin guard
- CE-certified according to DIN EN 13634

TWO IN ONE GLOVES

**UNISEX**  
2-in-1 features for greater comfort while touring: the sporty glove with twin-chamber technology is full of handy features that make it the perfect globetrotter. While the first chamber is unlined and offers excellent grip with kangaroo leather, the waterproof second chamber with a breathable GORE-TEX® membrane offers complete protection from the elements.

- Sporty gloves with GORE-TEX® 2-in-1 technology
- Riders choose between chambers according to the weather
- SuperFabric and shock-absorbing foam on ball of hand
- Double-thickness leather on edge of hand
- Plastic protective shell over knuckles with shock-absorbing foam
- Lightweight foam on finger backs
- Wiper lip on left index finger
- Touchscreen-compatible index finger and thumb tips
- Color markings make it easy to put on and take off
- CE-certified according to DIN EN 13594

ENDUROGUARD GLOVES

**UNISEX**  
The multifunctional EnduroGuard glove with twin-chamber technology is truly unique, allowing riders to easily switch chambers when weather conditions change. The PROOF chamber is windproof and waterproof, with a lining for thermal insulation. The GRIP chamber features wafer-thin, abrasion-resistant kangaroo leather for a crease-free, tactile fit.

- Adventure gloves with twin-chamber technology, which allows riders to switch chambers when weather conditions change.
- PROOF upper chamber is breathable, waterproof and windproof thanks to GORE-TEX® 2-in-1 technology with a lightweight, insulating pique jersey lining
- GRIP lower chamber made of highly abrasion-resistant kangaroo leather (approx. 0.7 mm), unlined and perforated for maximum grip
- Back of hand: blend of soft cowhide leather and Schoeller® Dynatec
- Highly abrasion-resistant ceraspace print on the knuckle protectors and ball of the hand
- Double-thickness leather on edge of hand
- Plastic protective shell over knuckles with shock-absorbing foam
- Lightweight foam on finger backs and back of the hand
- Touchscreen-compatible index finger and thumb tips
- Rubber wiper lip on left index finger
- Mid-length cuff with VELCRO® width adjustment
- Reflective material on the outside
- Special seams prevent pressure points on the fingers and palm of the hand
- CE-certified according to DIN EN 13594

DOUBLE R GLOVES

**UNISEX**  
This sturdy yet sporty 100% kangaroo leather glove punches well above its weight. The plastic protective shell with titanium inserts over the knuckles, SuperFabric material with impact-absorbing gel and impact-absorbing SuproTec foam padding on the back of the hand all help to provide maximum protection.

- Hard-wearing yet flexible sports glove
- 100 % kangaroo leather
- It provides optimum protection thanks to double thickness SuperFabric material and shock-absorbing gel at the edges and palms of the hand
- Tough plastic protective shell over the knuckles with titanium inserts for even greater protection
- Impact-absorbing SuproTec foam on the back of the hand, thickness varies depending on function and zone
- Finger bridge between little and ring fingers helps prevent the most common racetrack finger injuries
- Stretch inserts for a more comfortable fit
- CE-certified according to DIN EN 13594

AIRFLOW GLOVES

**UNISEX**  
These gloves are designed to complement the AirFlow suit, but are also perfect for any summer excursion. They combine thin, abrasion-resistant materials such as goatskin leather and AirTex that deliver both grip and protection. Knuckle protectors and impact-absorbing foam protect the back of the hand, while holes in the insides of the fingers ensure optimum ventilation. Your next summer tour won't be complete without them!

- Lightweight, well-ventilated summer gloves
- Highly breathable goatskin leather and large air-permeable Schoeller® AirTex applications on the back of the hand
- Perforations on back of hand and between fingers for improved ventilation
- Double-thickness palm, balls of the hands lined with Schoeller® Keprotec padding
- Leather-covered plastic protective shell over knuckles, with ventilation holes and a shock-absorbing foam lining
- Lightweight foam on finger backs
- Short wrist cuff with VELCRO® strap
- Soft cuff material prevents chafing of the wrist
- Preshaped design prevents pressure points at the fingers
- Palm unlined for a firmer grip
- Suede leather thumbs for wiping visor
- CE-certified according to DIN EN 13594

RALLYE GLOVES

UNISEX

When the road heats up, these lightweight, summery enduro gloves help you to keep your cool. You'll always have the upper hand with this mix of materials: robust kangaroo leather, goatskin leather and elasticated Spandex. And the shock-resistant hard shell offers the ultimate protection for off-road touring.

- Every detail of these summer adventure gloves has been designed for off-road riding.
- Two colors to match the rallye suits
- Palm made of abrasion-resistant kangaroo leather, double-thickness in key areas; sandwich construction made of memory foam and a double leather layer along the scaphoid bone
- Top of glove made from an elasticated and airy goat leather and Spandex mix
- BMW Motorrad hard shell with memory foam underlay
- Short cuffs made of goat leather, with VELCRO® fastening
- Ultimate ventilation provided by slits in the hard shell and netting at the base of the fingers
- Palm: Special seams prevent pressure points at the fingers
- Lower hand not lined
- Leather pads with foam cushioning protect the fingers when driving through foliage and also prevent wear and tear
- CE-certified according to DIN EN 13594

RIDE QUILTED JACKET

MEN AND WOMEN'S CUT

The breathable Ride quilting jacket is especially thin, meaning it can be worn under all BMW Motorrad jackets. Thanks to the stylish, slim-fit design, it can also be worn by itself.

- Practical quilted jacket, thin and lightweight, comfortably warm, breathable
- Can be worn alone or with any Motorrad motorcycling jacket
- Polyamide upper
- Thin quilting with PrimaLoft (80 g), double-thickness at elbows and shoulders
- Soft shell stretch inserts at the side for a good fit
- Loop at collar to attach to motorcycling jacket
- Zip at the lower back allows you to use the 40-cm connecting zip on motorcycling jackets and pants
- Water stop on the bottom hem and collar to avoid a suction effect in wet weather
- Close-fitting collar for maximum comfort
- Two zipped outer pockets, PackAway inner pocket (small pack size)
- Biker look with quilting at elbows and shoulders
- Figure-hugging cut, women's jacket features additional tapering at the waist
- Regular fit

# BAGS/ ACCESSORIES

Whatever the weather, there will always be riders out and about – which is why the right equipment is absolutely essential. No matter how rough the conditions, there’s a suitable soft-luggage solution in the BMW Motorrad range. Take the luggage roll, for example. It attaches quickly and easily to every BMW motorcycle, and it’s equally suitable for day trips or lengthy tours.

FUNCTION BACKPACK

An innovative backpack with a partitioned main compartment. The bag has a maximum capacity of 30 liters, a waterproof inner pouch and a whole host of storage options. But the real pièce de résistance is the carry strap stored in the back that allows you to secure the backpack directly to your motorcycle.

- High-quality motorcycling backpack for touring
- Capacity: expandable from approx. 30 to 35 liters
- Upper: Made of hard-wearing tarpaulin and nylon
- Waterproof main compartment with laptop section (up to 15 inches)
- Can be expanded for helmet
- Four outer pockets, inner mesh compartment
- Divisible main compartment, lower section can be accessed separately
- Ergonomically shaped back section
- Adjustable shoulder straps (padded), waist strap (removable) and chest strap
- Travel-bag-style handle
- Fixing straps for additional luggage on outside
- Can be attached to a bike as a luggage roll

SMALL FUNCTION BACKPACK

The small Function backpack is the perfect size for day trips and the daily commute. Rain showers are no problem for this bag thanks to its waterproof main compartment with an integrated laptop sleeve (up to 15"). The back of the Function backpack also features a pouch for the TrinkPak Hydra.

- High-quality, functional backpack
- Waterproof main compartment with roll closure, incl. laptop sleeve (up to 15") and small inner pocket
- Four outer pockets, incl. one in the cover flap, splash-resistant (rubber-lined zips)
- Pouch for the TrinkPak Hydra on the back (approx. 2 liters), closable with a press stud
- Mesh lining in the cover flap
- Ergonomically shaped back section
- Adjustable shoulder, chest and waist straps
- Carry straps on the front and top
- Reflective material on the shoulder straps, cover flap and front
- BMW Motorrad logotype on front
- Upper: water-resistant, easy-care polyester blend
- Inner lining: polyamide blend
- Weight approx. 550 grams
- Dimensions (HxWxD): approx. 40x30x16 cm
- Capacity: approx. 20 liters

Black/Grey/White or Blue/White/Red	
PRICE	
Bag	\$289.00

- Sturdy travel bag designed for motorcycle riders
- Approx. 90 liters, holds a complete set of rider equipment
- Hard-wearing outer material, reinforced back and base
- Lockable main compartment, interior divided into two
- Padded helmet compartment, foldaway partition
- Zippered outer compartment, two large compartments in lid

LUGGAGE ROLL

The waterproof luggage roll has a large opening, making it easy to pack whatever you might need to take with you. The small mesh outer pocket and waterproof zipped inner pockets provide space for less bulky items. Adjustable compression straps for volume adjustment. The luggage roll also comes with an adjustable and detachable shoulder strap plus a padded carry handle.

- Waterproof luggage roll
- Capacity: approx. 50 liters
- Outer: hard-wearing tarpaulin, textile-look base
- Removable, 3D-formed EVA base plate
- Large opening for easy packing
- Detachable shoulder strap, carry handle
- Includes adjustable straps with snaplock buckles for easy securing
- Reflective material on front and sides, BMW Motorrad reflective print

		64/66/31/32	64/66/32

Ask your BMW Motorrad dealer for details on how to combine previous and new rider equipment.

How to work out your size

It's very important that your motorcycle suit is a good fit, not least because if it's too tight or too loose, it can affect your concentration. And if you're distracted, this affects your safety on the road.

Jackets and pants also have to sit right on the wearer. Your sleeves and pant legs shouldn't ride up, because if they do, it's not just a safety issue – it also means you're not properly protected against the elements.

That's why the cut of all BMW Motorrad suits is specially designed for motorcycling use, and why they all feature plenty of expandable sections, opportunities for adjustment and other clever details. To make sure your suit is a perfect fit, all of its dimensions have to be exactly right. We know that riders come in many different body shapes, so our suits are available in over 40 different sizes. To find the one that's right for you, grab your tape measure and follow these simple instructions.

A Height

Stand barefoot beside a door frame. Place a book on your head, and hold it in position. Mark the position of the book on the doorframe, and measure from the floor.

B Chest

Take this measurement while wearing a shirt or lightweight pullover. Pass the tape measure under your arms, and measure around the broadest part of your chest and over the shoulder blades.

C Waist

Measure around your shirt, just above the top of your pants. Stand in a natural position and don't hold in your stomach – that way you'll ensure the pants sit comfortably.

D Hips

Measure around your body, above your pants and the widest point of your hips.

E Outside leg

Measure the distance down the outside of your leg, from the waist of your pants to the sole of your foot.

F Inside leg

Measure the distance down the inside of your leg, from the crotch seam to the sole of your foot.

IMPORTANT:

These tables are intended as a guide. They show the body measurements on which the BMW Motorrad rider equipment collection is based.

BMW Motorrad offers two types of fit according to how each item is used by riders:

Comfort fit:

More generous cut offering greater freedom of movement

Regular fit:

Closer, anatomical fit

<b>3-Perform</b>	<b>coldblack</b>
Abrasion-resistant, three-layer elasticated laminate that is windproof, waterproof and breathable thanks to the BMW climate membrane.	Treatment for dark material that reflects the sunlight and protects against UV rays, keeping suits cooler for longer.
<b>AirTex</b>	<b>CORDURA®_500</b>
With a resistant, net-like Dynafil structure, AirTex allows air to flow freely, keeping you cool even at higher temperatures. It is extremely light, yet offers all the safety you'd expect from a motorcycling jacket, and is ideal for hot-weather riding.	Nylon yarn consisting of 100% polyamide. The manufacturing process involves respinning and weaving the cut polyamide fibers. Their melting point is 410 °F.
<b>Aniline leather</b>	<b>Design</b>
Leather dyed exclusively with soluble pigments that are not layered with an overcoat or pigment coating, meaning the leather stays as breathable as it was on day one.	The characteristics of BMW design include the use of classic shapes and colors.
<b>Azo dyes</b>	<b>DuPont Coolmax</b>
These may not be used in colored outer materials since they can break down into carcinogenic amines.	DuPont Coolmax consists of hollow fibers which transport humidity to the outside very quickly by capillary action, making the material dry 50% faster than cotton.
<b>BMW climate membrane</b>	<b>Dynafil</b>
A functional membrane that meets BMW standards and is breathable, waterproof and windproof.	A highly tear-resistant polyamide yarn that's even more robust than CORDURA® 500/700 and resistant to high temperatures.
<b>Breathability</b>	<b>Dynatec</b>
Technically defined in terms of resistance to evaporating heat transfer (RET). The lower the RET, the more breathable the material.	Fabric made of Dynafil. Tear-resistant and extremely robust, its melting point is 554 °F.
<b>CE test mark</b>	<b>Expanding pleats</b>
The CE (Communauté Européenne) mark indicates that the product complies with European Union safety directives.	The upper material is sewn onto the stretch fabric in a corrugated form. This allows the compound to stretch, making the tear-resistant outer material even safer.
<b>ceraspace print</b>	<b>GORE-TEX®</b>
ceraspace technology offers unparalleled protection thanks to its unique composition – a polymer matrix containing integrated ceramic particles. This specially developed ceramic is extremely durable and resistant to high temperatures. Selective 3D printing significantly enhances abrasion-resistance without impairing flexibility or breathability.	A membrane made of Teflon™ (polytetrafluorethylene). Countless microscopic pores prevent the penetration of large water droplets while allowing the much smaller water vapor molecules to pass through. The branch-like structure of the membrane means that it is also windproof.

<b>GORE-TEX® X-TRAFIT</b>
In this specially designed three-layer construction, the glove lining is securely bonded to the membrane, which is then bonded to the upper, guaranteeing the perfect fit and the best possible grip. This also prevents slippage, which means the gloves can be quickly and easily removed, even with sweaty hands.

<b>Hydrophobic treatment</b>
A treatment which renders leather water-resistant. BMW uses the vat immersion technique. During this process, only the leather fibers are coated, to ensure the pores stay open and the leather remains breathable. Depending on use, dry cleaning ensures the garment maintains its waterproof performance over several years.

<b>HyperKewl system</b>
The HyperKewl water management system absorbs and stores moisture, then gradually releases it via evaporation. This has a cooling effect that reduces heat by 6 to 12 °F compared to the ambient temperature. This means the body stays cooler and is better able to perform in challenging conditions.

<b>Insert</b>
A removable membrane allowing a wide variety of uses in different climates. For protection, it is embedded in a very lightweight fabric on the top and bottom, and the first layer of the jacket will get wet if it rains.

<b>Kangaroo leather</b>
Boasting finer skin fibers, a tighter grain and denser skin structure, kangaroo leather outperforms cowhide leather in terms of abrasion and tear resistance.

<b>Keprotec</b>
A blend of Kevlar® and PA fibers which enhances Kevlar's already excellent stretchability and abrasion resistance. Used to reinforce those areas most at risk in a fall, such as the elbows, shoulders, knees and thumbs.

<b>Laminate</b>
A layered structure of various materials created by thermal adhesion (the adhesive is usually applied in spots), and particularly suited for use with all-weather membranes. Can also take the form of a lining laminate or three-ply laminate, and does not always need to be thermally attached to the outer material.

<b>Leather</b>
Because all leathers are not equal, we only use the very best. With a minimum thickness of at least 1.2 mm for our suits, and often much more, they offer exceptional abrasion resistance as a result.

<b>Material strength</b>
The specific combination of materials and protectors used in each product determines its abrasion resistance, tear resistance, impact resistance and burst strength. Categories: 1 star: average 2 stars: good 3 stars: exceptionally hard-wearing in all areas

<b>Motorcycle-specific cut</b>
This cut takes account of the body's contours in the riding position. The tops of the sleeves are further forwards, the sleeves and legs are angled, and there are numerous other special design details.

<b>Nappa leather</b>
The upper surface of the hide. Smooth and slightly shiny, worked to a soft leather with a fine grain.

<b>Nickel-free accessories</b>
All BMW Motorrad buttons and zips are nickel-free to protect the skin.

<b>Nubuck leather</b>
A highly breathable leather with a slightly roughened surface, for a smooth, firm grip.

<b>Nyspan®</b>
A bi-stretch fabric made from comfortable elastic yarn that distorts and regains its original shape with ease.

<b>PCP/CP</b>
Pentachlorophenol (PCP) is banned under the German prohibited chemicals order of 14 October 1993, though it may be used in concentrations of up to 5 mg/kg in leather processing.

<b>Phase change material</b>
The micro capsules in phase change material react to temperature changes in the environment and your body by changing its state of matter at a certain temperature. If the body/ambient temperature increases, the capsules store excess heat. If the temperature drops, they emit this absorbed heat.

<b>PORON</b>
A foam that comes in a variety of densities and specifications. Our gloves use specially designed foams that provide a high level of impact protection and keep their shape over a long period.

<b>ProTechWool</b>
A unique blend of wool and polyamide. It's breathable, quick-drying and heat-conducting.

<b>ProtectionGuard</b>
Combines the looks, quality and technical properties of raw leather with the easy maintenance of a performance fabric.

<b>Protectors</b>
The protectors used by BMW Motorrad are regularly put back on the developer's table and upgraded for every conceivable motorcycling scenario. The protectors are certified according to DIN EN 1621. All protectors are available in different sizes to ensure all riders can choose what suits them. Your BMW Motorrad dealership will be happy to help you work out your size. <b>NP2:</b> high-level impact absorption, excellent comfort, designed especially for touring, adventure and sports gear, certified according to DIN EN 1621 Level 2 (highest level of protection).

<b>NP Pro/NP Pro back protector (long):</b> will replace the previous NP2 back protector in new suits from 2018. Designed with six layers for optimum fit and flexibility, it features perforations for maximum comfort even in high temperatures. Certified according to DIN EN 1621 level 2 (enhanced protection). The long version measures around 7 cm longer and is available for adventure and touring suits, as well as for the Rallye and GS Dry suits for the first time. <b>NP Pro chest protector:</b> can be retrofitted to the Rallye suit. It can be secured with press studs in the front and is height-adjustable (two positions) Designed with several layers and perforated for enhanced ventilation. Includes a plastic splint in the middle area for better impact-absorption. The trapezoid protector is available in two sizes. Your BMW Motorrad dealership will be happy to help you work out your size. <b>NPL:</b> lighter protection designed especially for the urban environment, offering high levels of comfort and excellent impact absorption, certified according to DIN EN 1621 Level 1.
---

<b>Schoeller® PCM</b>
Derived from space research, this material features special paraffin capsules that allow it to store heat when warm and release it when the temperature drops. This means it can minimize fluctuations in body temperature, keeping the rider comfortable. The material is at its most effective between temperatures of 41 and 77 °F.

<b>Seamless bonding technology</b>
This process involves placing two pieces side by side, then covering the join with tape and pressure-bonding them with hot glue to create a flat, elastic join rather than a sewn seam.

<b>Serafil</b>
Highly tear-resistant safety yarn used in all BMW Motorrad motorcycle suits.

<b>Shape-Shift™ technology</b>
This shape-shifting technology uses a partition in the reservoir to keep the drink tube flat even when the two-liter container is full.

<b>Safety, active and passive</b>
Active safety measures are designed to prevent accidents, for example by using reflective material for good visibility. Passive safety features aim to minimize the effects of an accident, for instance by employing impact-resistant protectors and outer materials.

<b>Ventilation</b>
Various materials and technologies are used to improve air circulation and regulation of body temperature. Categories: 1 arrow: numerous systems/zips to assist ventilation 2 arrows: specific materials used for improved ventilation 3 arrows: outstanding ventilation

<b>Z-liner</b>
Here, the membrane is like a lining “suspended” between the outer material and the lining itself.

	<b>BMW climate membrane</b>		<b>Removable protectors</b>
